Mar 2020 – Aug 2020

- Deployed and configured Azure Data Service – Azure Data Factory, Databricks and Data Lake Storage
- Deployed and configured Azure Key Vault also created and managed keys and secrets.

LEADERSHIP/PROJECTS

Hate Speech Detection - Hyderabad, India.

Aug 2022 – Oct 2022

- Worked on it as part of a certification course on Artificial Intelligence and Machine Learning.
- A comparative study on the classification of the text into 3 categories using CNN and LSTM.
- Datasets used Davidson, HateXplain.

Monocular 3D Pedestrian Detection using Transformers - IIITDM Kancheepuram.

Aug 2025 – present

- Working on it as a part of master's project.
- Focused on building transformer-based model to recognize and localize pedestrians in 3D using single camera images.
- Dataset used KITTI.
